

UZUKHANYE MLONYENI

SOFTWARE DEVELOPER | DATA ANALYST

📍 Cape Town, South Africa 📞 075 485 9957 ✉ princeuzukhanye@gmail.com 🌐 github.com /princeuzukhanye-lang

Self-driven software developer and data analyst with hands-on experience building automation systems, API-based applications, and web solutions. Skilled in Python, front-end development, and data analysis. Strong problem-solver with the ability to quickly learn new tools and deliver practical solutions.

TECHNICAL SKILLS

Languages

- Python
- JavaScript
- HTML
- CSS

Tools

- GitHub
- Excel

Concepts

- API Integration
- Automation
- Data Analysis
- Web Development

Soft Skills

- Problem Solving
- Communication
- Fast Learning

CERTIFICATIONS

- Applied Data Science Lab (with Honors)
WorldQuant University
- Data Analytics Certificate
BossCoder
- Introduction to Cybersecurity
Harvard (edX)

LANGUAGES

- English (Fluent)

PROJECT EXPERIENCE

Automation Task Bot

Developed an automation system that executes scheduled tasks and logs activity with timestamps, simulating real-world workflow automation.

Tech: Python

API Data Dashboard

Built a system that fetches real-time data from an external API and displays it in a structured format. Implemented error handling and continuous data updates.

Tech: Python, REST APIs

E-commerce Manager System

Created a backend system to manage product pricing and inventory, simulating real e-commerce operations and business logic.

Tech: Python

South African Unemployment Data Analysis

Analyzed real-world unemployment data using Python, identifying trends across provinces and time periods. Created visualizations to communicate insights.

Tech: Python, Matplotlib

Web Development Projects

Developed and deployed multiple websites, including portfolio and interactive web pages, using HTML, CSS, and JavaScript. Focused on responsive design and user experience.

Tech: HTML, CSS, JavaScript
